Campbell County Cooperative Extension Service
3500 Alexandria Pike
Highland Heights, KY 41076

The Northern Kentucky Urban & Community Forestry Council (NKUCFC) is a 501 (c) 3 non-profit organization comprised of an interdisciplinary group of citizens and professionals who support the work of existing organizations and agencies interested in urban forestry. Our mission is to provide a forum for learning, sharing technical information and acting to incorporate the multiple values of urban forestry into the planning of our shared landscape. We help communities improve the management of their trees and green spaces so as to protect and enhance them for future generations, and provide an opportunity to join others who are interested in community trees.”

For additional information about the council, links to urban forestry resources, or information about other programs please visit:
